Our Crews need access to your lawn at your scheduled service date and time. We are not liable for the lack of access to your property caused by either a locked, blocked, or inoperable gate.

If a gate or it's locking mechanism is not working properly, or is in a state of disrepair, continued use of the gate to access your property will inevitably further effect the condition of the gate. For this reason, we are not responsible for the original or additional repair of your gates. If you request service, you **MUST** provide proper permanent access to your property.
